# THE BELL SYSTEM
# TECHNICAL JOURNAL

A JOURNAL DEVOTED TO THE
SCIENTIFIC AND ENGINEERING
ASPECTS OF ELECTRICAL
COMMUNICATION

*EDITORIAL BOARD*

J. J. Carty  Bancroft Gherardi  F. B. Jewett
E. B. Craft  L. F. Morehouse  O. B. Blackwell
H. P. Charlesworth  E. H. Colpitts  H. D. Arnold
R. W. King—*Editor*

VOLUME III
1924

AMERICAN TELEPHONE AND TELEGRAPH COMPANY
NEW YORK

# Index to Volume III

**A**

Advances in Physics II, Some Contemporary, *Karl K. Darrow*, Vol. III, No. 1, page 158.

Advances in Physics III, Some Contemporary, *K. K. Darrow*, Vol. III, No. 2, page 268.

Advances in Physics IV, Some Contemporary, *Karl K. Darrow*, Vol. III, No. 3, page 468.

Advances in Physics V (Electricity in Solids), Recent, *Karl K. Darrow*, Vol. III, No. 4, page 621.

Amplifiers, High Frequency, *H. T. Friis* and *A. G. Jensen*, Vol. III, No. 2, page 181.

Analyzer, An Electrical Frequency, *R. L. Wegel* and *C. R. Moore*, Vol. III, No. 2, page 299.

Applications of Statistical Methods to the Analysis of Physical and Engineering Data, *W. A. Shewhart*, Vol. III, No. 1, page 43.

**B**

Bell System, Relays in the, *S. P. Shackleton* and *H. W. Purcell*, Vol. III, No. 1, page 1.

Bell System, Some Very Long Telephone Circuits of the, *H. H. Nance*, Vol. III, No. 3, page 495.

Building-up of Sinusoidal Currents in Long Periodically Loaded Lines, *John R. Carson*, Vol. III, No. 4, page 558.

**C**

Campbell, George A., Mathematics in Industrial Research, Vol. III, No. 4, page 558.

Carson, John R., Building-up of Sinusoidal Currents in Long Periodically Loaded Lines, Vol. III, No. 4, page 558.

Carson, John R., A Generalization of the Reciprocal Theorem, Vol. III, No. 3, page 393.

Certain Factors Affecting Telegraph Speed, *H. Nyquist*, Vol. III, No. 2, page 324.

Clock-Controlled Tuning Fork as a Source of Constant Frequency, *J. G. Ferguson*, Vol. III, No. 1, page 145.

Constant Frequency, A Clock-Controlled Tuning Fork as a Source of, *J. G. Ferguson*, Vol. III, No. 1, page 145.

Contemporary Advances in Physics II, Some, *Karl K. Darrow*, Vol. III, No. 1, page 158.

Contemporary Advances in Physics III, Some, *K. K. Darrow*, Vol. III, No. 2, page 268.

Contemporary Advances in Physics IV, Some, *Karl K. Darrow*, Vol. III, No. 3, page 468.

Crandall, I. B., A Dynamical Study of the Vowel Sounds, Vol. III, No. 2, page 232.

Crowell, R. P., Deviation of Random Samples from Average Conditions and Significance to Traffic Men, Vol. III, No. 1, page 88.

**D**

Darrow, Karl K., Some Contemporary Advances in Physics II, Vol. III, No. 1, page 158.

Darrow, K. K., Some Contemporary Advances in Physics III, Vol. III, No. 2, page 268.

Darrow, Karl K., Some Contemporary Advances in Physics, Vol. III, No. 3, page 468.

Darrow, Karl K., Recent Advances in Physics V (Electricity in Solids), Vol. III, No. 4, page 621.

Design Characteristics of Electromagnets for Telephone Relays, *D. D. Miller,* Vol. III, No. 2, page 206.

Deviation of Random Samples from Average Conditions and Significance to Traffic Men, *E. C. Molina* and *R. P. Crowell,* Vol. III, No. 1, page 88.

Dodge, H. F., "Stethophone," An Electrical Stethoscope, Vol. III, No. 4, page 531.

Driving-Point Impedance of Two-Mesh Circuits, Theorems Regarding the, *Ronald M. Foster,* Vol. III, No. 4, page 651.

Dynamical Study of the Vowel Sounds, *I. B. Crandall,* Vol. III, No. 2, page 232.

**E**

Electrical Frequency Analyzer, *R. L. Wegel* and *C. R. Moore,* Vol. III, No. 2, page 299.

Electrical Tests and Their Applications in the Maintenance of Telephone Transmission, *W. H. Harden,* Vol. III, No. 3, page 353.

(Electricity in Solids), Recent Advances in Physics V, *Karl K. Darrow,* Vol. III, No. 4, page 621.

Electromagnets for Telephone Relays, Design Characteristics of, *D. D. Miller,* Vol. III, No. 2, page 206.

**F**

Ferguson, J. G., A Clock-Controlled Tuning Fork as a Source of Constant Frequency, Vol. III, No. 1, page 145.

Filters, Transmission Characteristics of Electric Wave, *Otto J. Zobel,* Vol. III, No. 4, page 567.

Foster, R. M., A Reactance Theorem, Vol. III, No. 2, page 259.

Foster, Ronald M., Theorems Regarding the Driving-Point Impedance of Two-Mesh Circuits, Vol. III, No. 4, page 651.

Frederick, H. A., "Stethophone," An Electrical Stethoscope, Vol. III, No. 4, page 531.

Frequency, A Clock-Controlled Tuning Fork as a Source of Constant, *J. G. Ferguson,* Vol. III, No. 1, page 145.

Frequency Amplifiers, High, *H. T. Friis* and *A. G. Jensen,* Vol. III, No. 2, page 181.

Frequency Analyzer, An Electrical, *R. L. Wegel* and *C. R. Moore,* Vol. III, No. 2, page 299.

Friis, H. T., High Frequency Amplifiers, Vol. III, No. 2, page 181.

**G**

Generalization of the Reciprocal Theorem, *John R. Carson,* Vol. III, No. 3, page 393.

Graphical Method of Analysis, Vacuum Tube Oscillators—A, *J. W. Horton,* Vol. III, No. 3, page 508.

## H

Harden, W. H., Electrical Tests and Their Applications in the Maintenance of Telephone Transmission, Vol. III, No. 3, page 353.

High Frequency Amplifiers, *H. T. Friis* and *A. G. Jensen*, Vol. III, No. 2, page 181.

Horton, J. W., Vacuum Tube Oscillators—A Graphical Method of Analysis, Vol. III, No. 3, page 508.

Hoyt, Ray S., Impedance of Loaded Lines and Design of Simulating and Compensating Networks, Vol. III, No. 3, page 414.

Humidity Recorders, *E. B. Wheeler*, Vol. III, No. 2, page 238.

## I

Impedance of Loaded Lines and Design of Simulating and Compensating Networks, *Ray S. Hoyt*, Vol. III, No. 3, page 414.

Industrial Research, Mathematics in, *George A. Campbell*, Vol. III, No. 4, page 550.

## J

Jensen, A. G., High Frequency Amplifiers, Vol. III, No. 2, page 181.

## L

Loaded Lines, Building-up of Sinusoidal Currents in Long Periodically, *John R. Carson*, Vol. III, No. 4, page 558.

Loaded Lines and Design of Simulating and Compensating Networks, Impedance of, *Ray S. Hoyt*, Vol. III, No. 3, page 414.

Long Telephone Circuits of the Bell System, Some Very, *H. H. Nance*, Vol. III, No. 3, page 495.

Lucas, Francis F., Photomicrography and Technical Microscopy in Its Application to Telephone Apparatus, Vol. III, No. 1, page 100.

## M

Maintenance of Telephone Transmission, Electrical Tests and Their Applications in the, *W. H. Harden*, Vol. III, No. 3, page 353.

Martin, W. H., The Transmission Unit and Telephone Transmission Reference System, Vol. III, No. 3, page 400.

Mathematics in Industrial Research, *George A. Campbell*, Vol. III, No. 4, page 550.

Microscopy in Its Application to Telephone Apparatus, Photomicrography and Technical, *Francis F. Lucas*, Vol. III, No. 1, page 100.

Miller, D. D., Design Characteristics of Electromagnets for Telephone Relays, Vol. III, No. 2, page 206.

Molina, E. C., Deviation of Random Samples from Average Conditions and Significance to Traffic Men, Vol. III, No. 1, page 88.

Moore, C. R., An Electrical Frequency Analyzer, Vol. III, No. 2, page 299.

## N

Nance, H. H., Some Very Long Telephone Circuits of the Bell System, Vol. III, No. 3, page 495.

Net works, Impedance of Loaded Lines and Design of Simulating and Compensating, *Ray S. Hoyt*, Vol. III, No. 3, page 414.

Nyquist, H., Certain Factors Affecting Telegraph Speed, Vol. III, No. 2, page 324.

**O**

Oscillators—A Graphical Method of Analysis, Vacuum Tube, *J. W. Horton*, Vol. III, No. 3, page 508.

**P**

Photomicrography and Technical Microscopy in Its Application to Telephone Apparatus, *Francis F. Lucas*, Vol. III, No. 1, page 100.

Physics II, Some Contemporary Advances in, *Karl K. Darrow*, Vol. III, No. 1, page 158.

Physics III, Some Contemporary Advances in, *K. K. Darrow*, Vol. III, No. 2, page 268.

Physics IV, Some Contemporary Advances in, *Karl K. Darrow*, Vol. III, No. 3, page 468.

Physics V (Electricity in Solids), Recent Advances in, *Karl K. Darrow*, Vol. III, No. 4, page

Purcell, H. W., Relays in the Bell System, Vol. III, No. 1, page 1.

**R**

Random Samples from Average Conditions and Significance to Traffic Men, Deviation of, *E. C. Molina* and *R. P. Crowell*, Vol. III, No. 1, page 88.

Reactance Theorem, *R. M. Foster*, Vol. III, No. 2, page 259.

Recent Advances in Physics V (Electricity in Solids), *Karl K. Darrow*, Vol. III, No. 4, page

Reciprocal Theorem, A Generalization, *John R. Carson*, Vol. III, No. 3, page 393.

Recorders, Humidity, *E. B. Wheeler*, Vol. III, No. 2, page 238.

Reference System, The Transmission Unit and Telephone Transmission, *W. H. Martin*, Vol. III, No. 3, page 400.

Relays, Design Characteristics of Electromagnets for Telephone, *D. D. Miller*, Vol. III, No. 2, page 206.

Relays in the Bell System, *S. P. Shackleton* and *H. W. Purcell*, Vol. III, No. 1, page 1.

Research, Mathematics in Industrial, *George A. Campbell*, Vol. III, No. 4, page

Shackleton, S. P., Relays in the Bell System, Vol. III, No. 1, page 1.

**S**

Shewhart, W. A., Some Applications of Statistical Methods to the Analysis of Physical and Engineering Data, Vol. III, No. 1, page 43.

Sinusoidal Currents in Long Periodically Loaded Lines, Building-up of, *John R. Carson*, Vol. III, No. 4, page

Smith, C. W., Practical Application of the Transmission Unit, Vol. III, No. 3, page 409.

(Solids, Electricity in), Recent Advances in Physics V, *Karl K. Darrow*, Vol. III, No. 4, page

Speed, Certain Factors Affecting Telegraph, *H. Nyquist*, Vol. III, No. 2, page 324.

Statistical Methods to the Analysis of Physical and Engineering Data, Some Applications of, *W. A. Shewhart*, Vol. III, No. 1, page 43.

"Stethophone," An Electrical Stethoscope, *H. A. Frederick* and *H. F. Dodge*, Vol. III, No. 4, page 531.

Stethoscope, "Stethophone," An Electrical, *H. A. Frederick* and *H. F. Dodge*, Vol. III, No. 4, page 531.

## T

Telegraph Speed, Certain Factors Affecting, *H. Nyquist*, Vol. III, No. 2, page 324.

Telephone Circuits of the Bell System, Some Very Long, *H. H. Nance*, Vol. III, No. 3, page 495.

Tests and Their Applications in the Maintenance of Telephone Transmission, Electrical, *W. H. Harden*, Vol. III, No. 3, page 353.

Theorem, A Generalization of the Reciprocal, *John R. Carson*, Vol. III, No. 3, page 393.

Theorems Regarding the Driving-Point Impedance of Two-Mesh Circuits, *Ronald M. Foster*, Vol. III, No. 4, page 651.

Transmission Characteristics of Electric Wave-Filters, *Otto J. Zobel*, Vol. III, No. 4, page 567.

Transmission, Electrical Tests and Their Applications in the Maintenance of Telephone, *W. H. Harden*, Vol. III, No. 3, page 353.

Transmission Reference System, The Transmission Unit and Telephone, *W. H. Martin*, Vol. III, No. 3, page 400.

Transmission Unit, Practical Application of the, *C. W. Smith*, Vol. III, No. 3, page 409.

Transmission Unit and Telephone Transmission Reference System, *W. H. Martin*, Vol. III, No. 3, page 400.

Two-Mesh Circuits, Theorems Regarding the Driving-Point Impedance of, *Ronald M. Foster*, Vol. III, No. 4, page 651.

## V

Vacuum Tube Oscillators—A Graphical Method of Analysis, *J. W. Horton*, Vol. III, No. 3, page 508.

Very Long Telephone Circuits of the Bell System, Some, *H. H. Nance*, Vol. III, No. 3, page 495.

Vowel Sounds, A Dynamical Study of the, *I. B. Crandall*, Vol. III, No. 2, page 232.

## W

Wave-Filters, Transmission Characteristics of Electric, *Otto J. Zobel*, Vol. III, No. 4, page

Wegel, R. L., An Electrical Frequency Analyzer, Vol. III, No. 2, page 299.

Wheeler, E. B., Humidity Recorders, Vol. III, No. 2, page 238.

## Z

Zobel, Otto J., Transmission Characteristics of Electric Wave-Filters, Vol. III, No. 4, page 567.
